Mushrooms - Missouri Poison Center

Mushroom "hunters" may mistakenly pick false morels (Gyromitra) and eat them at the dinner table These ingestions may lead to emergency room visits Why? Unfortunately, it is often difficult to differentiate poisonous mushrooms from edible types, even for trained mycologists In addition, toxic and non-toxic mushrooms can grow side by side For these reasons, the best prevention against

SP Wildlife Report Feb 2014

hunters, but there are no old, bold mushroom hunters" ! Getting one's dung together I've had guests request to stay and watch dung beetles for longer, rather than move on to a Big Five sighting, and I gladly agree as they are such interesting insects, and often some rather funny comparisons result from observing their behaviour! Dung beetles detect fresh dung in seconds as the scent is fanned
